PROFILE

Aspiring UI/UX Designer and Frontend Developer currently learning and building skills in Figma, Adobe Photoshop and user-centered design principles. I have working knowledge of HTML, CSS, JavaScript and Bootstrap and I am actively developing my front-end expertise using React to create responsive and interactive user interfaces. Passionate about understanding users, improving usability, and continuously learning modern design and development practices. Driven and detail-oriented, with a passion for applying skills to real-world projects and thriving in collaborative team environments.

PROFESSIONAL EXPERIENCE

UI/UX and Front-end Developer Intern

03/2026 – Present

Febno Technologies

Malappuram

- Designed and developed responsive websites with a strong focus on user experience and clean visual design.
- Created wireframes, user flows and high-fidelity UI designs using Figma.
- Developed modern, optimized web interfaces using HTML, CSS and JavaScript.
- Ensured mobile-first and cross-browser compatibility for all projects.
- Applied UX principles such as visual hierarchy, spacing, typography and accessibility.
- Built reusable components and maintained design consistency across projects.
- Conducted basic user research and enhanced usability during development phases.
- Conducted usability testing and UI/UX evaluation to assess user experience, documented issues and collaborated with developers by providing detailed bug reports for improvements.

PROJECTS

Golden Ocean

Business Website

- Designed and developed a responsive business website for investment and trade
- Built core pages including Hero, About, Services, Contact, and Footer
- Created service pages for Fish Trading, Logistics, Transportation, and Car Rental
- Used responsive design and reusable components for scalability and consistency

SmartBudget

Expense Manager (UI/UX Case Study)

- Designed a mobile expense tracking app for managing daily spending and budgets
- Created key UI screens including onboarding, login, dashboard, and transactions
- Designed data visualizations (charts & analytics) for better financial insights
- Focused on clean, user-friendly design with modern mobile UI principles
